VOA Associates
DESIGN Nick Luzietti.
PROJECT The remodeling of the Chicago firm's own office.

"The EcoWeave collection of solar screen fabric by Hartmann & Forbes improves daylighting, which helps us save energy and provide a humanistic work environment. Plus, the recyclable polyester is free of silicone, halogen, and PVC, there's no off-gassing, and 1 percent of sales is donated to the Project Green Foundation."

1. The 700 series offers total darkness.
2. The 600 series has a 6 percent openness factor.
3. In the 5000 series, openness ranges from 5 to 10 percent.
4. The 500 series, made from polyester, has 5 percent openness.
5. Privacy Fabrics obstruct inward visibility but still let you look out.
6. The 7000 series offers total darkness and is free of PVC.
7. The 2000 series, at 5 percent openness, is made from fiberglass.
