WOVEN-TO-SIZE POPYRUSWEAVE®

WTS
WOVEN-TO-SIZE

A time-honored method of shade making, each design is handwoven on traditional wooden looms to the window's dimensions, up to 180" wide without seams. This arduous weaving technique has a longer lead time, but delivers an exquisite loom-finished edge. Each shade is then handcrafted in our Oregon finishing facility to exacting standards.

COLLECTIONS

GRASSWEAVE [WTS], PAPYRUSWEAVE® [WTS]

PAPYRUSWEAVE

An unassuming, refined elegance defines this modern collection of hand-loomed wood-pulp fibers. Designed in textural patterns with soft tonal hues, inviting a serene and tranquil mood to interiors.

HARMONY

This captivating design attracts considerable attention with its unique variegated pattern. Pulp fibers, in harmonious hues, are woven together to create a medium-weight shading option that lends character and contrast to a room.
