DESIGN CONSIDERATIONS

- Stacking varies when in full up position, see roman shade stacking chart
- Depending on fabric choice and operation frequency, periodic dressing may be required to ensure proper folding when raised
- Shades wider than a fabric's seamless width will have vertical seams evenly spaced from either side
- When specifying the clutch method of operation, control loops are positioned behind the shade. Improper operation may lead to damage along the edges of delicate fabrics

HELPFUL HINT

- For limited casement depth, specify a Legacy Slim Clutch with a 1½"D headrail
