

SONESSE® WIREFREE powered by SOMFY
Sonesse Ultra 30

A premium battery system the Ultra 30 is quiet and powerful with a built-in, rechargeable battery.

- Motor and battery are concealed inside an aluminum tube and mounted with white brackets
- Controlled wirelessly through RTS radio frequency, external antenna concealed under valance
- A 12V DC charging kit is included, 1 for every 4 shades
- Batteries must be recharged before their complete discharge in order to prevent loss of shade programming due to under voltage. The suggested battery recharging cycle is once per year or when slowing shade operation is observed

MOTOR SPECIFICATIONS

Voltage	12V DC
Nominal Load Current	0.8A
Sound Level*	≤38 dB
RF Control Range (will vary)	60ft
Approximate Lift Capacity**	17lbs

SHADE SPECIFICATIONS

Min. Roman Shade Width	28"	
Min. Roman Shade Headrail Depth	2.25"	
Min. Roller Shade Width	27.625"	
	Standard Bracket	Large Bracket
Max. Roller Shade Diameter	3.25"	4.5"

*According to standards ISO 374 NF 31022 in dB

**For reference only. Specific load capacity for all shades to be determined by H&F
