POINT-OF-VIEW
New & Noteworthy

NEW AND NOTEWORTHY

NEW PRODUCT

Power Play
Designed for larger motorized shading installations, Motionblinds' CM-60V2 Power Panel streamlines power management for 24V DC motors. Supporting up to 20 motors across five channels, the dedicated power supply panel helps simplify wiring while delivering reliable performance. With four outputs rated at 3 amps each, it offers an efficient solution for commercial and residential projects requiring multiple motorized shades.

NEW PRODUCT

Scandinavian Serenity
Acclaimed designer Amy Meier brings her signature blend of understated luxury and natural beauty to a new collaboration with Hartmann&Forbes. Influenced by Japanese minimalism and Scandinavian simplicity, the assortment includes handwoven window coverings and wallcoverings crafted from bamboo, ramie, banana fiber and paper. Rich in texture and artisanal detail, each design offers a refined, organic approach to contemporary interiors.

NEW PRODUCT

Home in Harmony
Graber is expanding its Somfy-powered Zigbee motorization platform across additional shade styles, including bottom-up cellular, pleated, classic roman and top-down/bottom-up cellular shades. Designed to simplify smart shading throughout the home, the system offers seamless integration with major smart home platforms, two-way communication for shade and battery status, QR-code setup and convenient USB-C charging. Soft start and stop functionality adds a polished finishing touch to everyday operation.
