Honeycomb – Clove

### POINT-OF-VIEW New & Noteworthy

## NEW AND NOTEWORTHY

#### Into the Woods

Hartmann&Forbes' spring '26 collection, Meandering Wilderness, looks beyond pattern to capture a sense of place. Inspired by the stillness, structure and subtle movement of the forest, the collection introduces seven window covering designs that translate natural elements into handwoven texture and refined materials. From the fibrous movement of Tendril to the soft geometry of Honeycomb and the sheer simplicity of Stria, each design brings a layered, quietly luxurious perspective to the window

#### Outdoor Power, Refined

Rollese Acmeda's Li-ion FT Motor brings a sleek, battery-powered solution to exterior shading. Designed for outdoor use, the system features advanced brushless technology for smooth, quiet operation, while an integrated internal battery eliminates the need for external packs. Fabric tension and impact detection help maintain alignment and protect against obstructions. Paired with an Outdoor Solar Panel or USB-C Port Extension for flexible charging, it offers a streamlined, electrician-free installation with dependable performance.

#### Style in the Heartland

*Midwest Home: Interior Design in America's Heartland* by Ryan Hainey explores the diversity and quiet beauty of residential design across the region, featuring 20 homes ranging from lakeside retreats to urban lofts. Through thoughtful essays and striking photography, the book highlights how architecture and interiors respond to place, climate and culture, offering a closer look at the character and craftsmanship that define America's heartland.
