"NATURE  
DOES NOT  
HURRY,  
YET  
EVERYTHING  
IS ACCOMPLISHED."

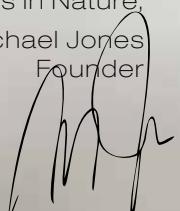

LAO TZU

In the stillness of the forest, I am reminded that nature holds all that we seek. Its rhythm teaches patience, its balance reveals beauty, and its whisper restores the soul.

This season, our designs draw from that wisdom. Each hand-woven piece begins as a natural material shaped by time and touch into something both timeless and new. Every fiber carries intention, crafted to awaken a sense of calm and connection in the spaces we inhabit.

At Hartmann&Forbes, we look to nature not only for inspiration but for guidance. The forest reminds us that true luxury is found in harmony, where the purity of nature meets the artistry of the human hand. Our work is to listen deeply and translate that stillness into beauty that endures.

May this season invite a return to presence. To see the natural world as both muse and mirror, offering peace, strength, and inspiration for shaping spaces of quiet abundance.

## MEANDERING WILDERNESS

A SENSORY JOURNEY,  
A SYMPHONY OF SIGHTS,  
SOUNDS, AND TEXTURES,  
INVITING QUIET REFLECTION  
AND CONNECTION TO THE  
WILD'S POETIC RHYTHM.

AN HOMAGE  
to nature's poetry,  
this collection  
unveils exquisite weaves  
inspired by  
the gentle wandering  
through a dense forest.  
Each handwoven shade,  
artisanal wallcovering,  
and refined textile  
captures nature's quiet splendor  
from the subtle elegance  
of misty mornings  
and lush moss  
to the soft whisper  
of leaves underfoot.  
Colorways  
are thoughtfully drawn from  
the forest's quiet palette:  
velvety greens,  
mossy browns,  
soft grays,  
and earthy neutrals,  
all in harmony  
with the natural world.

## SOFT NATURAL FABRIC

True comfort is found in the experience.

New Ertheweave designs,  
including Stria, Parterre, and Liscio  
are woven in small, old-world mills where  
generations of tradition guide every thread.

With a focus on breathability,  
tactile softness, and the nuance  
of artisan craftsmanship,  
these textiles offer a relaxed yet  
refined sense of luxury.

The Honeycomb series,  
woven entirely by hand  
on wooden looms, represents  
artistry with intention.

Each shade is woven to order,  
creating only what is needed.

It is a process that honors  
the unhurried rhythm  
of the artisan and preserves  
the resources of the natural world.
