

HARTMANN & FORBES®

STRIPE
FALL 2026

WHERE SUMMER LINGERS

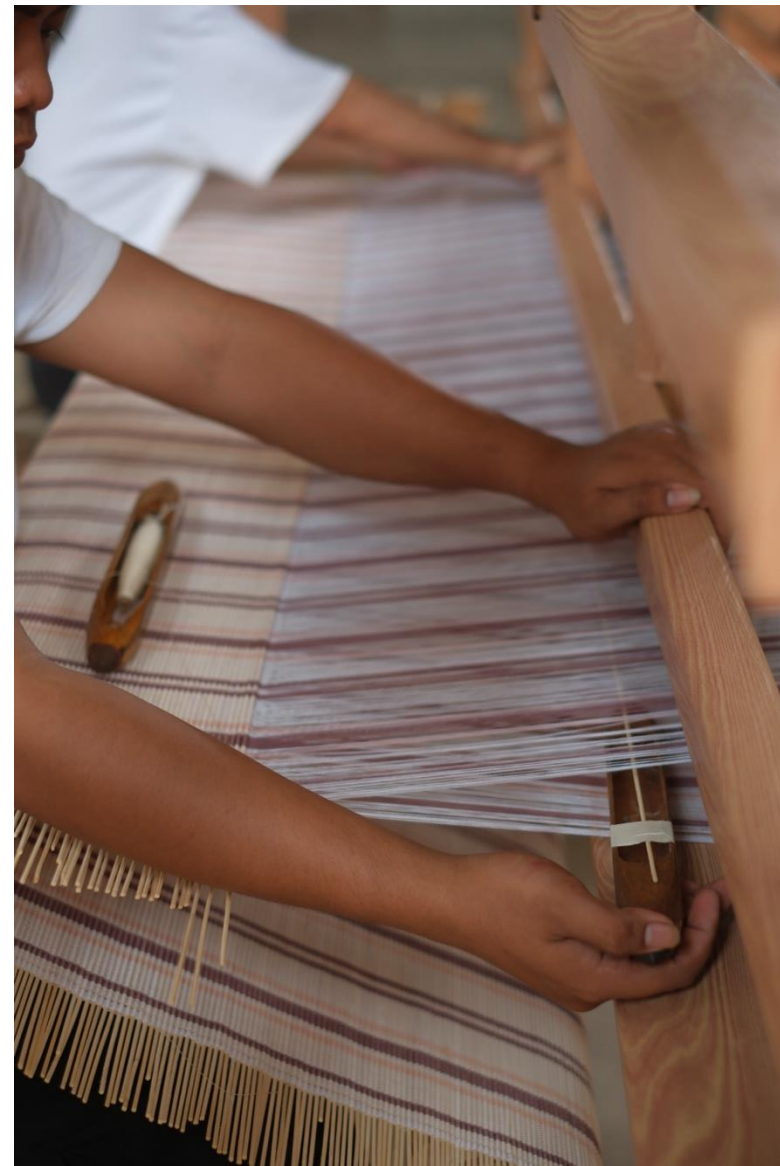

Inspired by the timeless charm of vintage beach clubs, Stripe captures the relaxed spirit of coastal living. It recalls long afternoons by the water, sun-faded umbrellas, and the simple beauty of a place designed for slowing down.

Each shade begins with individually placed bamboo, creating a structured foundation for handwoven bands of color. The result is a layered weave that adds texture, depth, and softly filtered light, bringing warmth and dimension to a space.

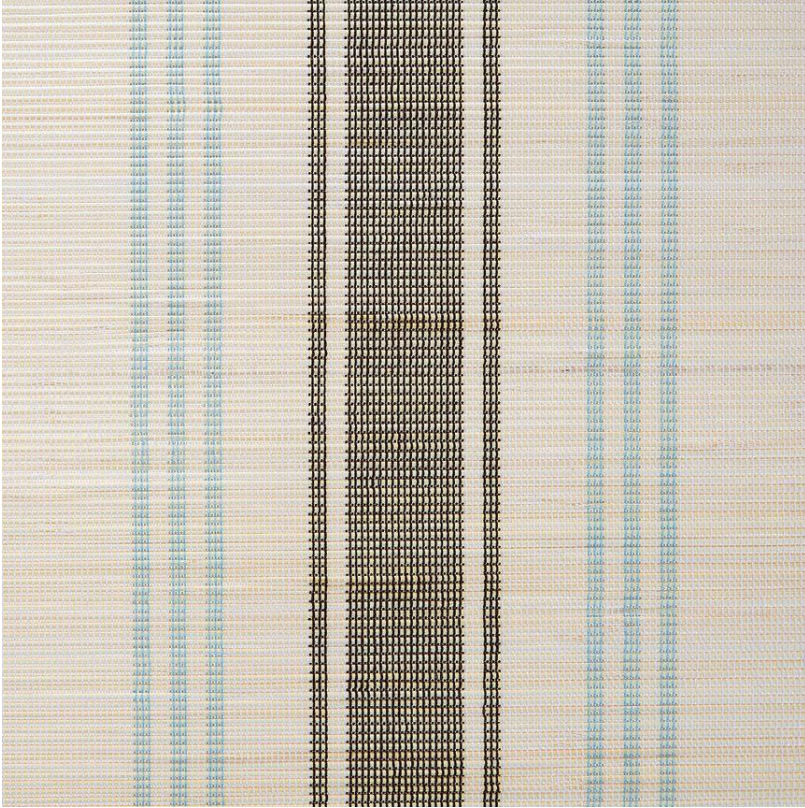

The palette reflects the easy elegance of the coast, with sandy neutrals, weathered blues, and sun-washed hues that feel both familiar and fresh. Designed to layer beautifully with natural materials, Stripe is an invitation to sanctuary through the joy of color and the warmth of a season held a little longer.
