

NEWTON
SMART SHADE SYSTEM

Powered by an electric motor with an internal rechargeable battery, the Newton™ SMART shade system is a sophisticated shade control option for upgrading a manual cord-lock or clutch control at an affordable price point. This stand-alone motor solution is ideal for retrofit situations, simple applications or when power cannot otherwise be provided at the window.

- Safety by Design – Safer for homes with children and pets
- Low Maintenance – Rechargeable battery with USB cable, battery life 500 cycles/approx one year
- Stylish – Modern metal pull chain and tassel offered in four colorways
- Preprogrammed – Shades are programmed prior to shipping
- Warranty – H&F 5 year motor warranty
