

LOW VOLTAGE POWER DELIVERY SYSTEMS

Our selection of low voltage transformers, distribution kits and enclosures provide everything needed for projects both large and small.

POWER DISTRIBUTION ENCLOSURE KIT SPECIFICATIONS

24V TRANSFORMER SPECIFICATIONS

DP-240 SERIES

DRP-480S SERIES

		DP-240 SERIES	DRP-480S SERIES
Output	DC Voltage	24V	24V
	Rated Current	10A	20A
Protection	Over Voltage	30V to 36V Shut Down o/p voltage, re-power to recover	
	Over Temperature	100°C ± 5°C TSW detect on heatsink of power switch	
		Shut Down o/p voltage, recovers automatically after temperature goes down	
Environment	Working Temp*	-10°C to +70°C	-20°C to +70°C
	Working Humidity	20 to 90% RH non-condensing	

*Refer to de-rating curve
