

SONESSE® 40 RTS

A line voltage motor that supports the narrowest shade width in the line voltage category.

- The power cord cannot be cut to lengths <18" (455mm) as the power cord functions as the antenna.
- Available only with an 11ft motor cord that requires termination.
- Wiring AC power may require an electrician and a permit. Check local regulations.

MOTOR SPECIFICATIONS

Voltage*	120V AC
Sound Level*	≤47 dBA
RF Control Range (will vary)	60ft

*According to standards ISO 374 NF 31022 in dBA

SHADE SPECIFICATIONS

MIN Shade Width	24" / 610mm
MIN Roman Shade Headrail Depth	3.5" / 88mm
MAX Roller Shade Diameter	4" / 101mm
Approximate Lift Capacity*	34 pounds / 15Kg

*For reference only. Specific load capacity for all shades to be determined by Hartmann&Forbes
