Fabric Shade
DUAL-SHADE

DUAL-SHADE

Shades can be mounted behind a fabric roman shade to provide additional light, glare and privacy control. These dual systems are offered in a variety of styles to provide enhanced flexibility to control the room's environment.

DUAL-SHADE – ROMAN | ROLLER

A rollershade mounted behind a fabric roman shade on a shared headrail provides sunlight and privacy control. Performance Rollershades are offered in a range of opacities giving you flexibility to control your environment.

DUAL-SHADE – ROMAN | ROMAN

A Classic Style roman shade made from liner fabric is mounted behind a fabric roman shade on a shared headrail, allowing the flexibility to choose between the transparency of the unlined shade and the privacy of the liner shade.
