

Fabric Shade

FLAT – OLD STYLE | TRADITIONAL STYLE

FLAT – OLD STYLE | TRADITIONAL STYLE

A staple for design, this minimalistic roman shade style allows the fabric to be the window centerpiece and works well in any setting.

DETAILS

Headrail: Liner wrapped wood headrail. Headrail depth based on method of operation

Valance: Old Style:

- 6"L rear valance made from liner fabric. Some motors require 8"L
- Outside mount – Valances not included as standard, available upon request as a front or back valance. If valance is specified, side returns will match valance length

Traditional Style:

- 6"L front valance made from the shade fabric. Some motors require 8"L
- Outside mount – ½" wider than shade body to accommodate side returns

Side Returns: Outside mount – Side returns made from the shade fabric, length dependent on method of operation

Deductions: Inside mount – ⅜"W overall deduction taken for operating clearance
Outside mount – no deduction taken

Liner: Hand-sewn translucent liner included. Sheer liner available

Lift Cords: Color coordinated lift cords draw through hand-stitched rings and child-safety shroud 

DESIGN CONSIDERATIONS

- If casement depth is limited, consider ¾" x ¾" or 1" x 1" headrail with cordlock
- Small operating grommets can be viewed from the exterior near top of a Traditional Style shade. Select color of grommet to coordinate with the exterior of home
- Depending on fabric choice and operation frequency, periodic dressing may be required to ensure proper folding when raised
- Shades wider than a fabric's seamless width will have vertical seams evenly spaced from either side
- Old Style – Pull cords located behind the shade, making any manual method of operation difficult to access behind inside mount shades
- To add an architectural detail consider adding an Old Style front valance
