Fabric Shade
SPLITVIEW™ STYLE

SPLITVIEW™ STYLE Top-Down/Bottom-Up or Top-Down Only

The Splitview™ Style is ideal for rooms where you want to preserve a view, control light and maintain privacy. This roman shade operates from top-down or bottom-up.

HEADRAIL & VALANCE DETAILS

· Wrapped 1½"D x ¾"H pine headrail. Other headrail sizes available

· 6"L front valance and 4"L rear valance made from the shade fabric

· 6"L side returns standard on outside mount shades. Other sizes available

SHADE OPERATION

· Top-Down/Bottom-Up: Two cord-lock and pulley system;
 cord right operates bottom-up, cord left operates top-down

· Top-Down Only: One cord-lock and pulley system

· Pull-cord approximately 40% the length of the shade. If longer pull-cords
 are needed specify required length. Braided pull-cord available as no-charge option

· Two clear cord-cleats (white, silver, bronze, brass available)

SHADE DETAILS

· Available as Flat or Classic

· When shade is top-down, operating cords will be visible in open
 section of shade. Cords will be spaced 8"-12" apart

· Inside mount shade has a ⅜"W deduction to allow
 for operating clearance

· Handsewn translucent liner included. Sheer liner available as no-charge
 option in Flat Style. Blackout liner available in Classic Style only

· Pull-cords draw through hand-stitched rings. Cord shroud applied
 for child and pet safety

· Pull-cord color coordinated to shade fabric unless otherwise specified

· Handcrafted Arc tassel. See tassel options

· Tailor-sewn bottom hem with ⅞"H internal hem bar

Top-Down/Bottom-Up
Size Limitations
Max. width: 96"
Max. length: 144"

Top-Down Only with Clutch
Size Limitations
Max. width: 96"
Max. length: 144"

DESIGN CONSIDERATIONS

· Shades over 72"W may be heavier and more challenging to level when raising.
 Consider a Top-Down Only with Clutch

· Shades wider than a fabric's seamless width will have vertical seams evenly
 spaced from either side

· Automation not recommended without a control system

If lowering shades below 50%
we do not recommend Splitview
Style due to cord exposure.
