DUAL SHADE – ROLLER | ROLLER

A Dual Shade system that features a natural Roller Style shade with a privacy Performance Rollershade behind, delivering a mix of light, sun protection and privacy control.

DETAILS

- Front natural woven Roller Style shade crafted to chosen specifications
- Rear Performance Rollershade crafted to chosen specifications
- Wrapped 5¼"D x ¾"H pine headrail
- 6"L front and rear valance made of front shade fabric. Valance lined with translucent liner. Sheer and blackout liner available
- 6"L side returns standard on outside mount shades. Other sizes available
- Bead Chain loop colors coordinated to front roller style shade fabric and will match unless otherwise specified
- Shades will ship unattached from headrail and will need to be mounted on-site

Size Limitations
 Max. width: 96"
 Max. length: If over 84"
 contact H&F

DESIGN CONSIDERATIONS

- If ordered as stand alone shades, controls may not match
- Headrail depth may be larger depending on specified shade size. Consider an optional Dual Stacked Bracket (see below) to minimize the headrail depth
- To minimize chain loops, we recommend upgrading to automation
- Shades with lengths over three times the width are not recommended as they may track unevenly
- We recommend hiring a professional installer to ensure shades are level and shimmed for proper operation. Frayed edges caused by improper installation will not be covered under craftsmanship warranty
