Performance Rollershade

CORDLESS
ROLLERSHADE

CORDLESS ROLLERSHADE

An innovative, cord-free shade operated by a smooth and silent spring system, delivers a simple and safe solution for spaces that solicit a cordless choice. With one easy pull, this rollershade lifts in a quiet and controlled motion.

SHADE OPERATION

· Fabric rolls onto a heavy-duty aluminum tube. Diameter of tube based on fabric selection and size of shade

· Adjustable speed controller built into operating system

· Concealed shade pull handle sewn into bottom hem. Made from shade fabric

· Clutch system and mounting brackets are white. Outside mount shade bracket covers will match shade fabric unless otherwise specified
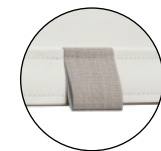

SHADE DETAILS

· Shade fabric falls from rear of tube closest to window. Reverse roll available

· Shade fabric measures $1\frac{3}{8}$" narrower than specified width to accommodate clutch, idle pin and brackets, see inside mount gaps

· Sewn bottom flat hem with aluminum internal hem bar

Clutch, Bracket & Cover Colors

White   Brown

Vanilla   Black

Grey

Size Limitations
Min. width: 26"
Max. width: 96"
Max. length: must be able to reach pull handle

DESIGN CONSIDERATIONS

· If shade is specified wider than the width of the fabric it will be railroaded. A horizontal seam may be required

· Shades with lengths over three times the width are not recommended as they may track unevenly

· If specifying with duplex fabric consider reverse roll option so top of roll matches the shade body

· To cover light gaps on top of window, we recommend a Solarscreen Flat Valance or Curved Cassette System

· If specified without Top Treatment, consider Ultra Metal Clutch upgrade for a distinct expression

· We recommend hiring a professional installer to ensure shades are level and shimmed for proper operation. Frayed edges caused by improper installation will not be covered under craftsmanship warranty

· For projects requiring a cordless roman shade, contact Customer Relations for custom specification options

The Cordless Rollershade is a great option in areas accessible to small children or pets.
